- Coming Soon: AWS

PROFILE

As a highly motivated and proactive developer with passion and a growth mindset, I bring a balance of critical thinking, problem-solving and creativity into life. With 8+ years of experience in customer-facing businesses, I get transferrable skills into my new career.

EXPERIENCE

General Assembly — Mar 2022 - Jun 2022

- * Intensive 12-week (500+ hour) full-time software engineering course covering the fundamentals of full-stack software development.
- * Daily classwork, homework and mini-projects solidify the material learnt.
- * Developed an online game, "Tic Tac Toe", built from scratch by leveraging HTML, CSS and basic JavaScript functionality.
- * Full-stack applications: implemented and enhanced multiple relational CRUD operations using Ruby on Rails framework and Postgres database modelling and integrating with third-party APIs (Clouinary).
- * Full-stack practical group project "Expense Tracker" experience across various technologies, including HTML/CSS, REACT.js, APIs, Bootstrap, Rails PostgreSQL and GitHub.
- * The final full-stack project, the "Shop Now" online shopping website, challenged me to learn more advanced features of React (Redux), Express/Cors, Firestore and Firebase Cloud Functions.

HVAC Business Admin / Accounts Officer — Jan 2017 - Jan 2022

- * In charge of all the stock orders, service technicians' daily timesheets and schedules.
- * Assisting with the SEO team in maintaining WordPress websites.
- * Methodically led the operation team improving productivity and efficiency.

Accounting Officer — Jul 2010 - Mar 2015

- * Managed daily transactions of small business customers on a face-to-face basis and maintained healthy relationships with customers
- * Promoted cross-selling opportunities by referring businesses to appropriate teams

EDUCATION

Macquarie University — Feb 2008 - Jun 2009
